Royal Training & Consultant Services

INTRODUCTION

Royal Training & Consultant Services established in 2015, offering globally recognized quality courses on International Health and Safety. Our organization has a huge portfolio of customized learning models and health and safety courses that cater to specific training and consulting needs. RTCS has achieved phenomenal success in delivering quality health and safety training and Environmental Management Consultancy programs to make the world a safer and sustainable place to live.

OUR VISION

To be recognized and respected as one of the premier safety & engineering companies that equip people with the vital knowledge and skills in making their workplace better, safer and productive, not only for themselves but also for those around them.

OUR MISSION

We will strive to exceed the expectations of our clients by committing to our shared values and achieving the highest levels of customer satisfaction by rendering exemplary service beyond expectation, with extraordinary emphasis on providing the best safety and engineering education and training in accordance with internationally accepted professional standards and best practices. In this way we will ensure that our profit, quality and growth goals are met.

RTCS PROVIDES THREE KEY PORTFOLIOS OF SERVICES

1. Training
2. Certification
3. Consultancy

TRAINING SERVICES

We offer an extensive range of superlative and highly accredited occupational health and safety training courses to help novices as well as professionals develop their career potential. Our training programmes include HSE, QA/QC & ISO AUDITOR courses and other well recognized courses, hence dealing with almost every aspect of workplace health and safety. These training programs are organized in public or in-house and are mainly focused to knowledge and skills to equip your team to get rid of non-value added work, cut unnecessary costs, and establish a culture of business excellence.

NEBOSH

Founded in 1979, the National Examination Board in Occupational Safety and Health (NEBOSH) is a globally recognized, independent examination board and awarding body. NEBOSH delivers wide-rangibg vocational qualifications dealing with health, safety and environmental practices and risk management at workplaces in both public and private sectors.

NEBOSH qualifications are recognized by reputed bodies such as the Institution of Occupational Safety and Health (OOSH), the International Institute of Risk and Safety Management (IIRSM) and the Institute of Environmental Management and Assessment (IEMA).

NEBOSH is the first health and safety awarding body to be accredited by the UK regulatory authorities such as the office of the Qualifications and Examinations Lifelong Learning and Skills(DCELLS) in Wales and the Council for the Curriculam, Examinations and Assessment (CCEA) in Northern Ireland.

NEBOSH INTERNATIONAL DIPLOMA COURSE

The NEBOSH International Diploma in Occupational Health and Safety is the leading qualification for health and safety professionals. The course, offered at RTCS, provides participants knowledge on international standards to deal with various occupational hazards and health risks. The course is also ideal for students aspiring to become health and safety experts as it helps them progress faster in their career in the field of Occupational Health and Safety.

NEBOSH International Diploma is offered via E-learning mode to students from INDIA & GULF, ABROADS countries. Students enrolled for the course can access international standard study materials which include audios, videos, practice tests, case studies and grade books. Conceptualised and prepared by experts in the field of workplace health and safety, the course material helps students gain updated knowledge and skills matching international standards, and guides them to become successful international health and safety professionals.

COURSE OVERVIEW

NEBOSH IDip has been designed as a web–based interactive training (e-learning) programme, which intent to help prospective HSE specialists to further their knowledge and skills on latest trends, amendments in national and international laws, and other technical specifications at their convenient time. The course has four unit-wise elements as defined by NEBOSH, UK.

The NEBOSH International Diploma is divided into 4 units which are assessed individually –

1. Unit IA: Managing health and safety
2. Unit IB: Hazardous agents in the workplace
3. Unit IC: Workplace and work equipment safety
4. Unit ID: Application of health and safety theory and practice

Successfully completing NEBOSH Diploma will enhance your professional career and give you an edge over others in any occupational environment.

You can add 'IDipNEBOSH' after your name which as universal recognition.

You are entitled to acquire IOSH graduate membership (GradIOSH), the first step towards becoming Chartered Health and Safety Practitioner.

You are also eligible for full membership (MIIRSM) of the International Institute of Risk and Safety Management (IIRSM).
